SUMMARY

Computer Science graduate (University of London) with hands-on experience in full-stack web, mobile, and desktop application development. Skilled in Java, PHP, React/ React Native, Node.js and SQL databases. Strong problem-solving mindset, eager to contribute to a collaborative development team and grow as a software developer.

EDUCATION

Oct 2023 – Jun 2026 **BSc (Hons) in Computer Science, University of London (Registered Centre: Metropolitan College) • Athens**

- *Key coursework: Database Systems & SQL, Web/Mobile Development, Data Structures & Algorithms, Software Engineering*

PRACTICAL EXPERIENCE & PROJECTS

PlanGo | Full-Stack Travel Planning Web Application

May 2026

- Developed a dynamic, full-stack travel planning web application using PHP and MySQL to generate personalized itineraries.
- Implemented user authentication, profile management, and interactive route mapping to enhance the travel content experience.
- Designed a relational database schema to efficiently store, update, and retrieve complex multi-day trip data.

Theatre Booking App | Full-Stack Mobile Application

Apr 2026

- Built a cross-platform mobile application using React Native (Expo), Express.js, and a MariaDB backend.
- Integrated JWT (JSON Web Tokens) for secure user registration, login, and session persistence.
- Designed interactive features allowing users to browse theater productions, filter showtimes, and complete a multi-step seat selection and ticket booking flow.

FixMyCity | Android Mobile Application

Mar 2026

- Developed a native Android application using Java and the Android SDK aimed at reporting local community issues.
- Utilized Firebase Firestore for real-time data storage and synchronized management of submitted community reports.
- Integrated map-based location picking, image attachments, and dynamic data rendering using RecyclerView.

Travel Agency Management System | Desktop Application

Feb 2025

- Created a desktop management system in Java utilizing JavaFX, FXML, and Maven for GUI rendering and dependency management.
- Connected the application to a MariaDB/MySQL database via JDBC to enable full CRUD operations for customers, trips, and bookings.

SKILLS

Languages: Java, JavaScript, PHP, SQL, HTML5, CSS3

Frontend & Mobile: React, React Native, Expo, JavaFX, Responsive Design

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases & Cloud: MySQL, MariaDB, Firebase (Firestore)

Tools & Practices: Git/GitHub, Maven, Android SDK, JDBC, Postman

LANGUAGES

Greek

Native Speaker

English

Fluent
